LIMITED WARRANTY: March pumps are guaranteed only against defects in workmanship and materials. March cannot warranty the application or the compatibility of the materials with the solution being pumped. If this worksheet is filled out in full detail and returned to March Mfg. Inc., March can then advise as to the suitability of the pump in a specific application. The warranty is still limited to our workmanship and materials. Liability in all events is limited to the purchase price paid or to replacing or repairing any pump which is defective due to our material and workmanship.

Address: City: State: - Select - Zip:

Attention of: Phone:

Pump Model No. Pump Serial No.

1 – CAPACITY REQUIRED GPM, or GPH @ ft. hd.

2 – SUCTION

A. Pipe I.D.

B. Number of 90° elbows

C. Horizontal length

D. Flooded inlet Yes No

E. Must be primed Yes No

F. Priming method

G. Valves on inlet

H. Max. pressure drop

I. NPSH available at pumping temp.

J. Supply tank capacity

5 – DUTY CYCLE

A. Intermittent min. on min. off

B. Continuous

C. Will pump operate against closed discharge? Yes

D. Is it possible for the pump to run dry? Yes

6 – ELECTRICAL

Volts - Select - Hz - Select - Phase - Select -

TEFC Exp. Proof

7 – Position of pump

Horizontal Vertical

Inlet up Inlet down

3 – DISCHARGE

A. Pipe I.D.

B. Vertical lift

C. Horizontal length

D. Pressure drop across filter

E. Pressure drop across nozzle

F. Open tank

G. Is entire system pressurized? PSIG

8 – Ambient temp. around pump:

9 – Will pump be disassembled to fit system? Yes No

10 – Will pump be flushed and drained when not in use?
Yes No

11 – Will pump be serviced at any time? Yes No

12 – Altitude?

4 – SOLUTION TO BE PUMPED

A. Chemical composition

B. Trade name

C. % Concentration

D. Ph

E. Solids in suspension

F. Liquid temp. range

G. Specific gravity

H. Viscosity @ liquid temp.
