

Product Overview

-] Integrated encoder
-] No maintenance gearbox
-] Sealless design – no dynamic seals that could allow hazardous fluids to enter the environment
-] Unique 3 chamber design
-] Innovative diaphragm developed exclusively for the EVO Series – Electric Diaphragm Pump
-] Choice of 5 different materials of construction to handle the most aggressive and corrosive fluids
-] Built in control and monitoring capability
-] Can be controlled via a PLC

Built In Safety Features:

-] Leak Detection – detects diaphragm failure and proactively shuts down the pump and alerts the drive
-] Secondary Leak Containment – Protects key components from any potential contact with hazardous fluids
-] Dead head capability – Ability to deadhead when downstream valve is closed
